

SERVICE BULLETIN

Subject: Controller Part Number Changes for Scotsman Ice Machines

Model Family	Old Part Number	New Part Number
UC24	11-0636-21	11-0668-21
Pre MC Modular Cubers, CU3030	11-0621-21	11-0673-21
SCC50B / CU50 / SRC065	11-0573-52	11-0663-21
MC Modular Cubers	11-0640-21	11-0662-21

All Scotsman control boards used in our products will be changing to a new part number over the course of the next year. This is to reflect the updated boards we will be using which will be compliant with R290 versions of our product line. These new boards will be visually identical to the old boards and there are no operational differences between boards. Please use the above QR link to see which updated boards have been added to the above list.

The new will include sealed relays. The updated part numbers will be the only way to identify the new boards, and we have added a link to a spreadsheet above that will show the old and new part numbers. We will update this list as we continue to release these new boards to support our product's move to R290 refrigerant.

Any new boards can be used in machines which use R404 or R134 refrigerant. **UNDER NO CIRCUMSTANCES SHOULD AN OLD CONTROL BOARD FOR A R404 OR R134 MACHINE BE USED IN A MACHINE WHICH CONTAINS R290 REFRIGERANT.** Any questions regarding these control board changes should be directed to Scotsman's Customer Service Department or Technical Service Department.
